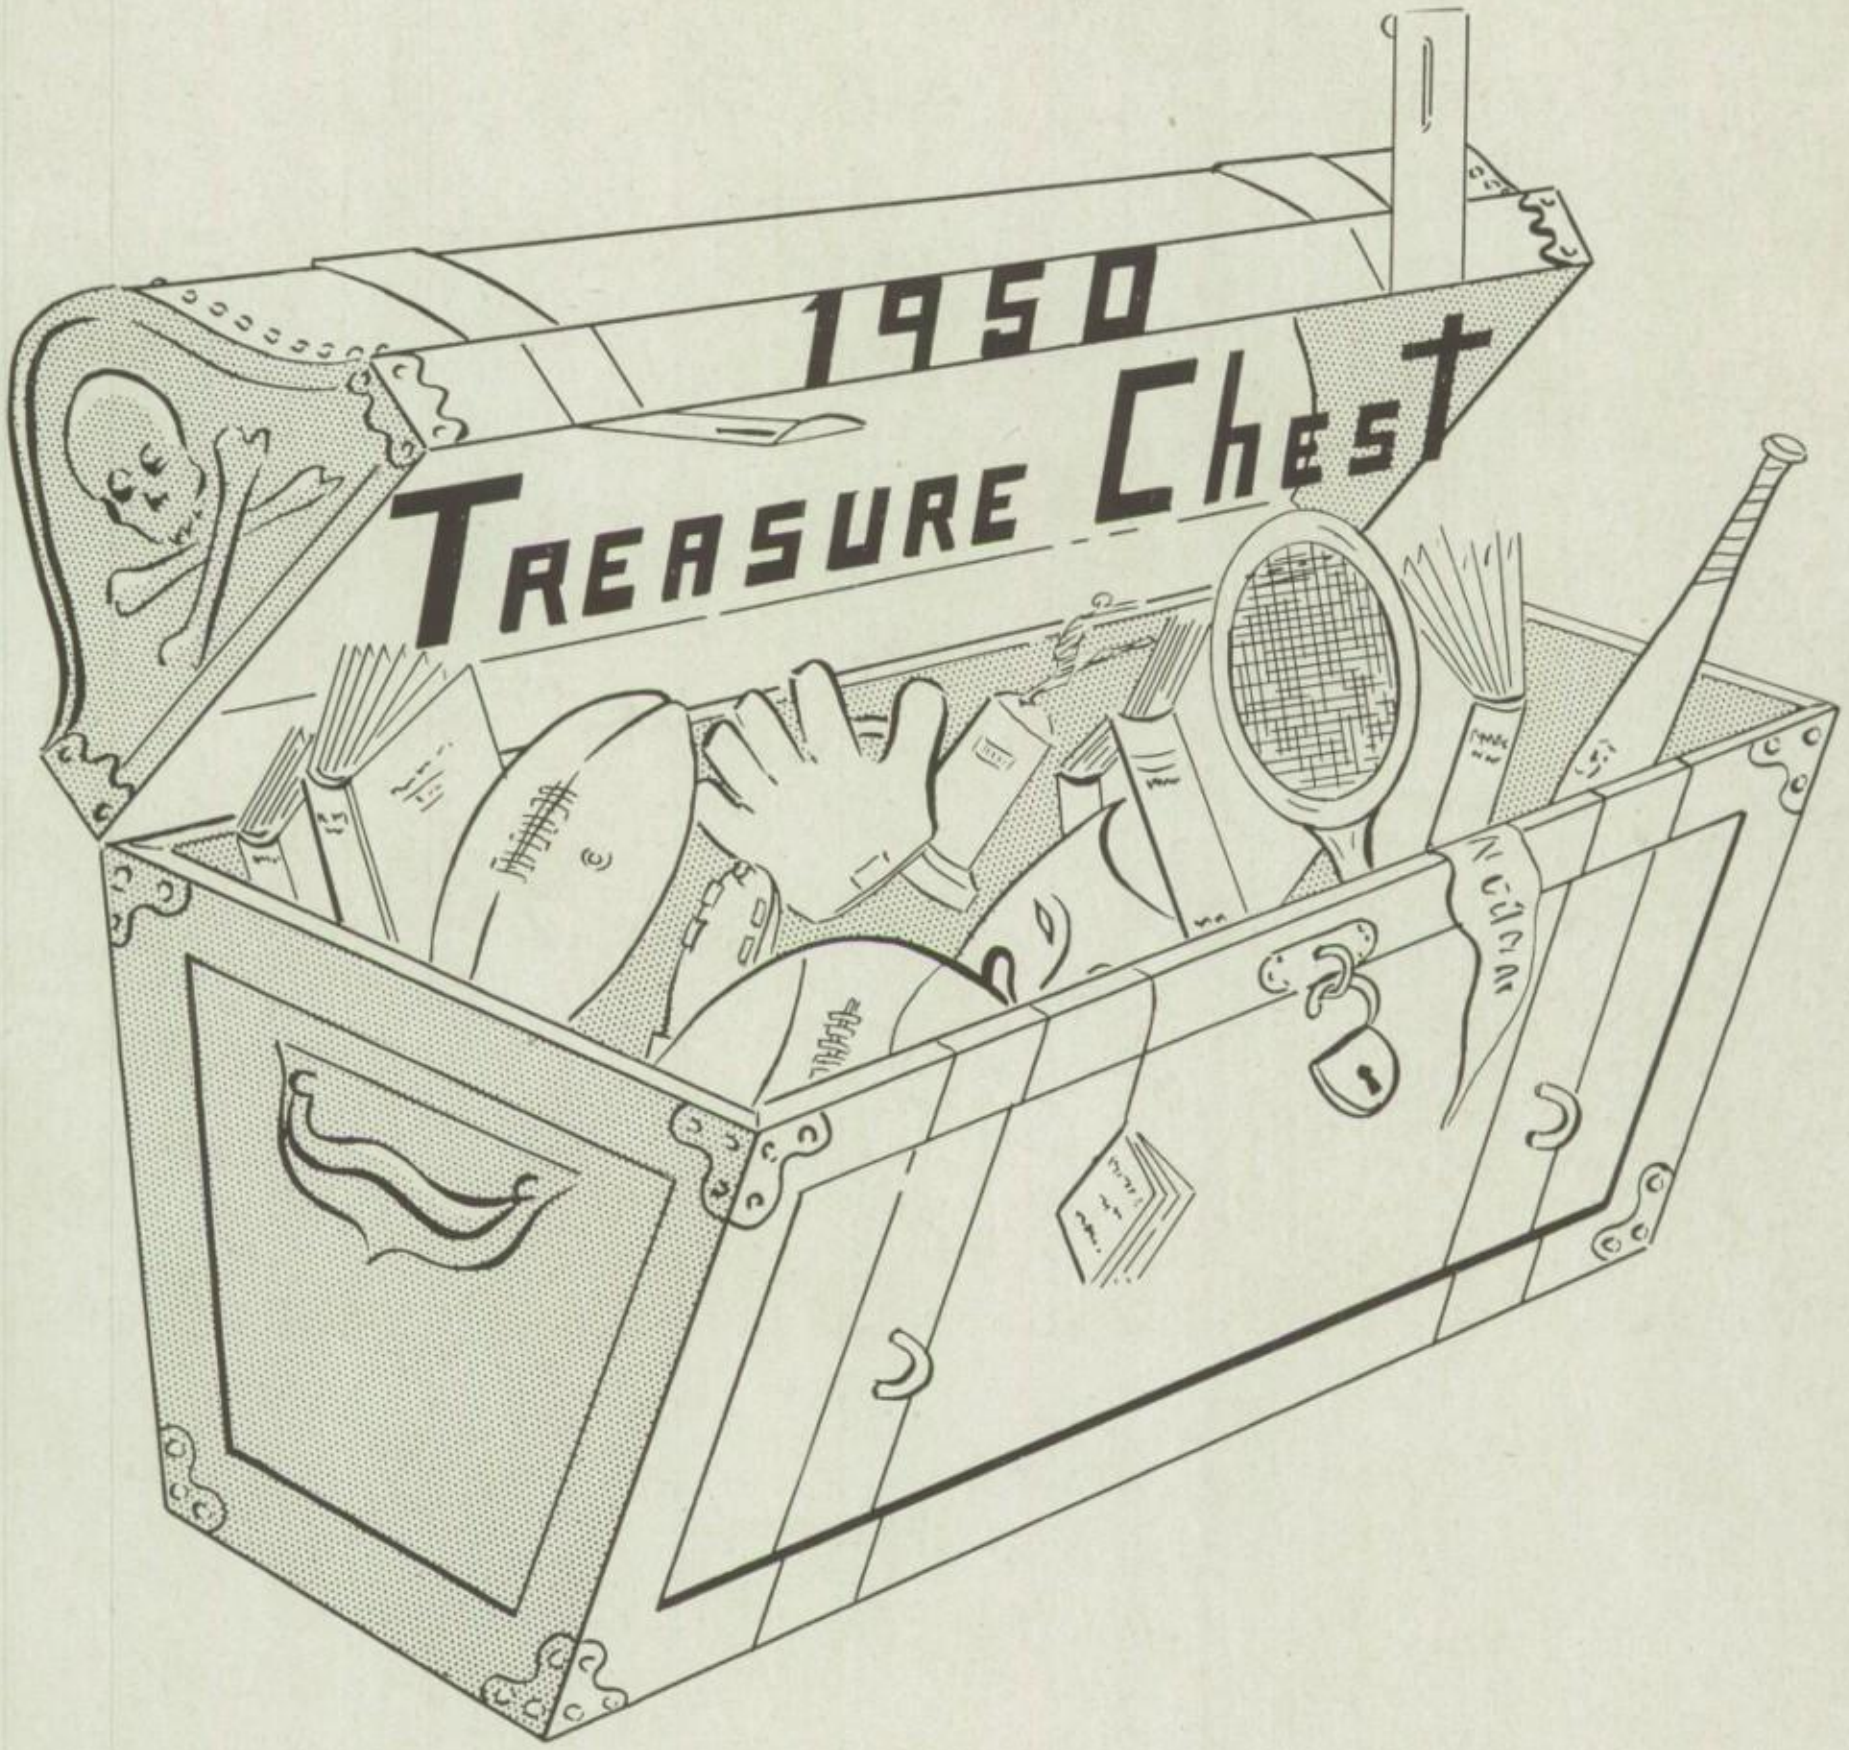
Alma Mater

"On a Hill beyond the city,
Far away from all its strife
Stands our dear old Alma Mater
In the sunlight of her life."

Yes within these halls are memories stored—memories of classes, schoolmates, teachers, friends, and of happy days spent here as students. There are the "Admin" where all the classes met; the press which offers work for all students interested in printing; Echo Hall where echos of people's practicing could be heard all day; the library where every student spent his share of time poring over books and writing reports for some assignment; Linden Hall, the home of the girls and Hadley Hall the home of the boys. All these hold and will hold their share of memories in the hearts of the students of M. V. A.



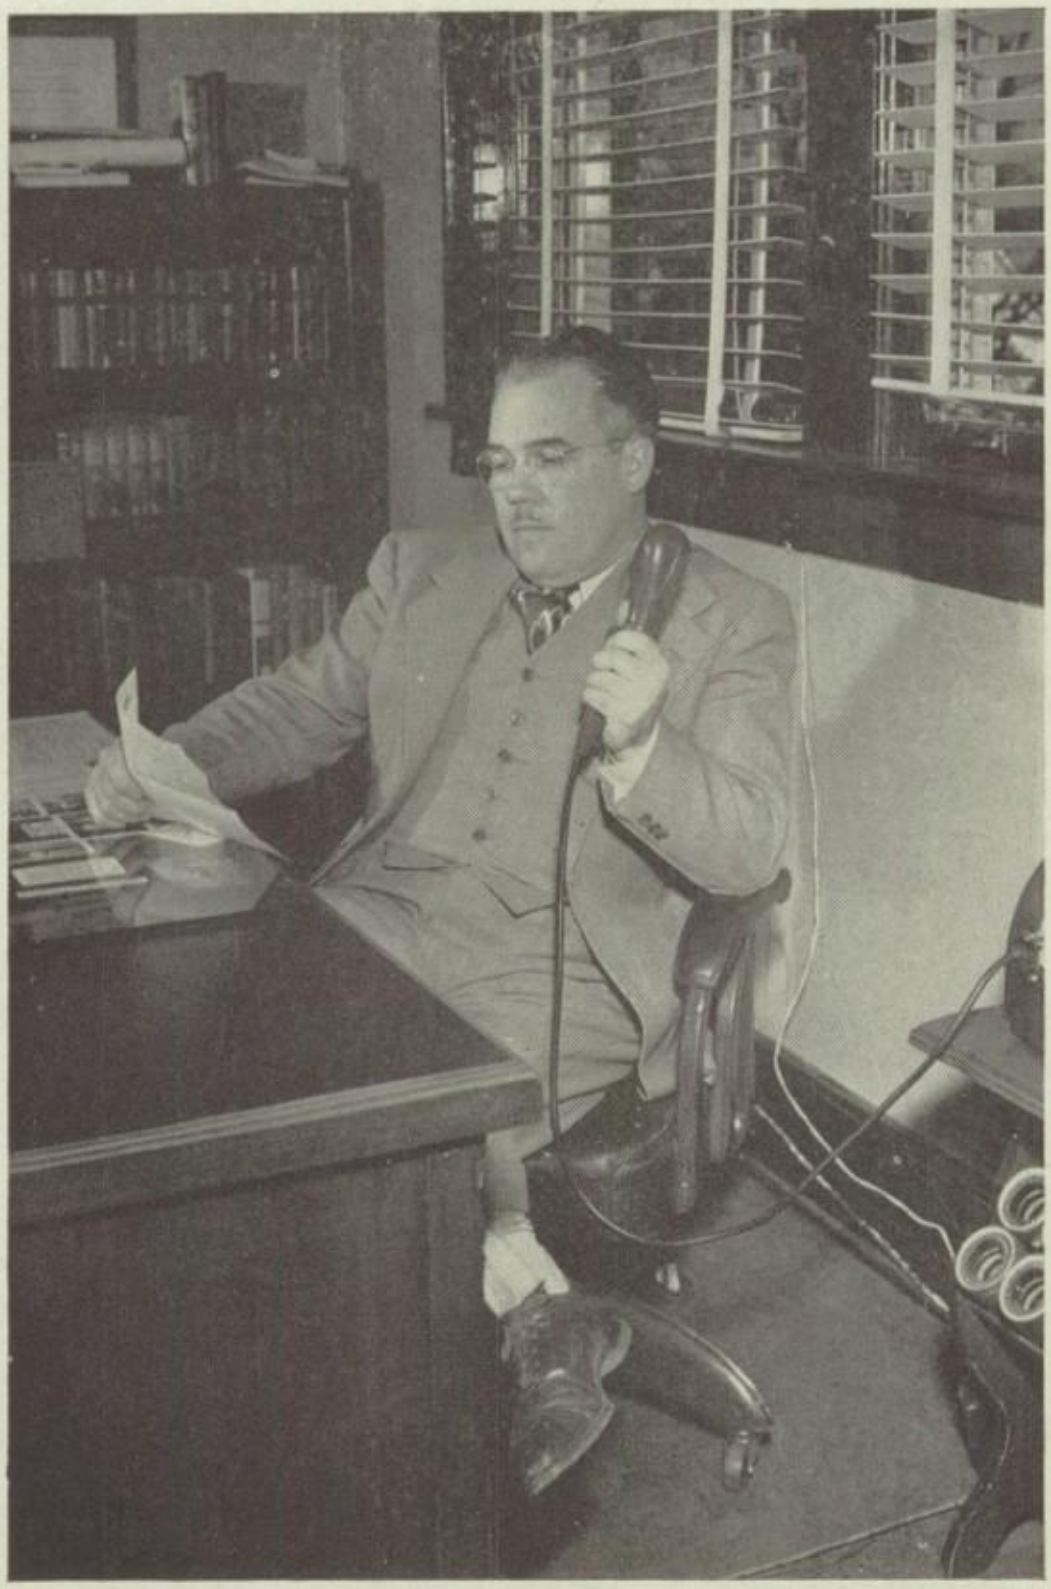
Mount Vernon Academy

MOUNT VERNON **OHIO**

Dedication

To one who has ever set before us an example of patience and godliness; one who has never for a moment been too busy for a friendly smile or a kind "hello;" the easiest man at Mt. Vernon Academy to get along with and the hardest to get along without; we the students of Mt. Vernon Academy do dedicate this 1950 edition of the Treasure Chest to:

MR. ARTHUR J. WORKMAN



FACULTY

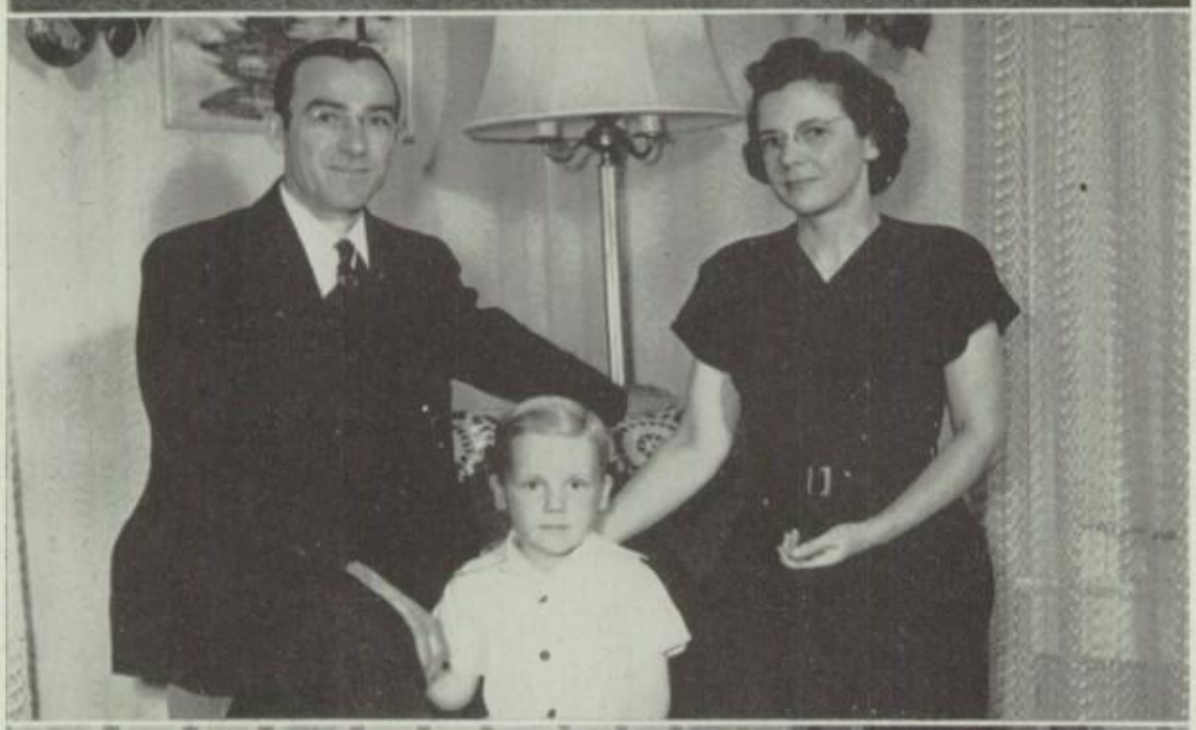
Principal's Message

The students whose faces and activities are pictured on the pages of this book have accepted the challenge of a dark and needy world. They have heard the despairing cry of humanity and are now being trained to respond to that cry. Within the hearts of these boys and girls there is a radiance, a light, a hope, that when shared with the world, will illuminate the paths of many who now walk in darkness.

They will soon join the ranks of those who have gone before, to make up the "great army of youth, rightly trained," which shall prepare the world for a crucified, risen, and soon-coming Saviour. This is the great objective of Mount Vernon Academy, and it is most heartening to see it reflected in the very countenances and purposes of its students. May their vision of service, and their purpose for the future, become even more vivid as they continue their training.

It is our hope that other youth will catch the spirit as they glance through these pages, until every Seventh-day Adventist youth in Ohio, West Pennsylvania, and West Virginia will join our happy family, and will swell the numbers who will join the army of workers whose responsibility it is to finish the work and hasten the coming of Jesus.

Prof. J. R. Shull relaxes at home for a few minutes with his family, Jackie, Billy, Teddy and Mrs. Shull. Prof. Shull teaches a class in Problems of Democracy besides his many duties as Principal and Business Manager.



Mr. Miller, M. V. A. Accountant, smiles from his arm chair with Mrs. Miller and bright eyed son, Larry. Mr. Miller also teaches Bookkeeping.

Prof. Kraft, Registrar and Instructor in Business, poses for his picture with Mrs. Kraft and Esther.

Mom and Pop Pitchen each flash us a smile in the quiet relaxation of their home. Mom is the Cafeteria Matron while Pop does trucking around the campus.

Prof. Dickinson, Dean of Boys and English Instructor, spends a few minutes in his apartment. He, his wife, and small daughter, Priscilla have won a place in our hearts after only one year at Mt. Vernon.

Miss Ryder, Dean of Girls, glances up from her desk to help some girl with her latest problem.

Mr. Sowler pauses for his picture before delving into that stack of American History and Bible home work papers. He is shown here with Mrs. Sowler and son, Dick.

It's time to learn those Bible Doctrines texts, everybody. Miss Jones is plotting a quiz for tomorrows assignment. Miss Jones is also the school librarian.

Miss Benson squeezes in a few minutes of practice time for herself before the next piano or voice student makes his appearance.

Stanford comes into his mother's studio after dinner for a short chat before she begins the afternoon work of piano and organ lessons. Mrs. Wolf has a great interest in the music of the entire campus.

Mr. Kinney, Superintendent of the College Press, is happy at M. V. A. with Norman, Ross, and Mrs. Kinney.

Mr. Workman forgets the previous day of broken pipes, leaky faucets and paint jobs for a few minutes with Mrs. Workman and Frances.

This is our Spanish teacher, Mr. Nobrega, with Mrs. Nobrega, Marilyn, and Buddy. Incidently Mr. Nobrega also teaches a class in Bible.

Mr. Lee, teaches those bugbears, Physics, Geometry and Biology. Linda is shown with a big smile for everyone. She is seated with her proud papa and Mrs. Lee.

Here's the man that is responsible for the fine work the Mt. Vernon City Laundry and Cleaners puts out. Jacky, Bobby, Susie, and Mrs. Leach are also shown with Mr. Leach.

Mr. and Mrs. Hopkins, assistant supervisors of the Laundry, pose for their picture with husky son, Bob.

Mr. Wolfe poses with Mrs. Wolfe, Bobby, and Carole Jean. Carole has the destinction of being the youngest member of the Faculty families. Her proud Daddy teaches Mathematics and Industrial Arts.

Mr. and Mrs. Baker have an extra big smile for the world. Mrs. Baker is the Academy English Teacher and Mr. Baker is the Farm Superintendent.

Mr. and Mrs. Young. Mrs. Young taught the students English during the first part of the year.

ACTIVITIES

The Student Association Board of Management is a group of students who make plans for the Student Association and see that they are carried out. This group plans such things as Campaigns, Christmas program, and Courtesy week. Religious activities, Musical organizations, and the Boy's and Girl's clubs all offer marvelous opportunities to devolop leadership. At Mt. Vernon Academy with all its activities there is never a minute in the day when one could be at his wit's end for want of something to do.

RELIGION

M. V. Officers plan next week's meeting.

Boy's worship with Prof. Dickinson in charge.

Girls worship just prior to the evening study period.

Seminar officers with Dick Faber speaking.

Elder F. F. Bush, speaker of the fall Week of Prayer.

Our student Sabbath School officers.

CLASSES

Miss Jones asks her class, "Does anyone have a pearl to offer?"

English I is fun! If you learn those parts of speech.

Library period— Do be quite!

Clickety click of typewriter keys—Yes, the typing class is at work.

Shop class displays many worthwhile items made while they learn.

Everybody works in Mr. Kinney's printing class.

BAND

The philosophy of the Music Department of Mt. Vernon Academy is to provide not only basic training, but also practical experience for the students.

Under the supervision of Mrs. Maude Wolfe, Miss Wilmoth Benson and Mr. Sowler those interested in music have had the opportunity to play, sing, and direct for the various services conducted each Sabbath.

Music for the church services on Sabbath has been provided principally by our faithful Academy Choir, the Girl's glee club assuming this responsibility 5 times during the year.

The big event of the year for the choir was the thrill of singing in Memorial Hall in Columbus for the Ohio Constituancy Meeting.

Beside the choral organizations we have an enthusiastic band which concluded its year's activities with a fine concert under the direction of Clayton Sowler.

Interest of the students in music is reflected in the fact that over half of those enrolled this year participated in one of the music organizations or took private lessons in organ, piano, or voice.

With all this fine talent it was necessary to have two Spring Recitals one on March 26 and the other on April 2. The year's work was culminated in the traditional sacred program the last Sabbath afternoon, commencement weekend.

General Information

Admittance

The academy is a coeducational institution, the privileges of which are not limited to young people of the Seventh-day Adventist faith. All persons of good character and proper recommendations are admitted to its classes on equal terms. The only requirement is that all cheerfully comply with the regulations of the school and give due respect to its religious principles.

Aims

The aims of education in this academy may be found in the principles laid down by one of the academy's founders: "We are called to the service of God and our fellow men; and to fit us for this service should be the object of our education." *White.* Thus Christian education as conceived by Seventh-day Adventists comprehends "more than the pursuit of a certain course of study. It is the harmonious development of the physical, the mental, and the spiritual powers."

Objectives

1. To promote the development of a consistent Christian life.
2. To train for leadership in church and community.
3. To assist in the development of noble Christian character.
4. To inspire intelligent and sincere love for our country.
5. To stimulate an appreciation of cultural value of the best in books, in nature, and in music.
6. To lead to an appreciation of the dignity of labor.
7. To develop habits of accuracy, responsibility, and resourcefulness.

Standard of Conduct

See the STUDENT HANDBOOK by the Department of Education, Columbia Union Conference. They may be obtained upon request from the academy.

History

The Mount Vernon school was opened as an academy in the fall of 1893. It was changed to a college in 1905, but at the time the Foreign Mission Seminary in Washington, D. C., was raised to the status of a college, Mount Vernon College was reduced to an academy as formerly. This change took place in 1914.

Location

The city of Mount Vernon is situated near the geographical center of the state of Ohio, at the intersection of the Baltimore and Ohio Railroad and the Cleveland, Akron and Cincinnati Division of the Pennsylvania Railroad, making the academy of easy access. The Columbus-Akron Greyhound Bus stops at the entrance to the academy. The academy is located in the midst of an extensive campus, one mile northeast of the city limits on the CCC Highway. A beautiful grove forms an attractive background. The surrounding country is hilly, affording a pleasing variety of landscape to the eye of the lover of nature. Joining the academy grounds is Hiawatha Park, which may be used by students at times during the school year. In the midst of this park is a lake where the students skate during the winter season.

Graduation requirements

A student must include in his course of sixteen units at least two majors (one must be English) and two minors. Note: A major consists of three or more units in one field and a minor of two units in one field. A unit of credit is given for a class that meets five forty-minute periods, or the equivalent, a week for the school year.

Problems of Religion, American History, and Problems of Democracy must also be included.

Washington Missionary College entrance requirements

The student must have a major sequence of three units in English, and three minor sequences of two units each from the following four fields: Social Studies, Foreign Language, Mathematics, and Natural Science. Any additional requirements would depend upon specific fields of specialization planned.

Answers to Financial Questions Asked by Prospective Students

1. **How can a room be reserved?**

By a deposit of $5. This $5 is separate from all other fees, and it is refundable when the student gives up the room in good condition.

2. **Is there an Advance Deposit required?**

At the opening of school each student is required to make a cash advance payment.

Dormitory Students

The deposit is $50. At the close of the school term $37 will be refunded as credit on the last statement. The remaining $13 consists of $8 as a first semester matriculation fee, and $5 for the medical fee. The con- Neither of these two fees are refundable after the matriculation and medical examination. It shall be understood that the $5 medical fee will provide for a physical examination, all first aid supplies, and doctor's charges exclusive of major surgery. These medical benefits are covered only when the attending physician is the one designated by the board. The $8 matriculation fee is charged each semester and is not refundable.

Village Students

The deposit is $35. At the close of the school term $22 will be refunded as a credit on the last statement. The remaining $13 consists of $8 as a first semester matriculation fee, and $5 for the medical fee. The conditions of the medical fee are the same as for the dormitory students.

Matriculation Fee

This fee is charged each semester and includes the following: dormitory club membership dues, student association membership, a subscription to the school paper and a copy of the Annual, the lecture course fee, matriculation fee.

3. **Can students be matriculated if they have an unpaid account?**

The board of Management has ruled that all accounts must be paid in full before matriculation.

4. **Are there monthly fixed charges?**

Yes. In Mount Vernon Academy the Board has adopted the cash policy for the operation of the school since our young people come to the school for the purpose of gaining a good education. It would be poor training not to follow the "pay as you go" slogan.

Charges for the school month for dormitory students—

Tuition, $5.00 per unit, full work		$19.50
Dormitory Service and Laundry (two in a room)		18.00
(one in a room)		21.00
Extra wattage—A charge of .01 per watt per monh is made in excess of 120 watts per room.		
Board, boys	Minimum	$25.00
Board, girls	Minimum	21.00

Village Students—

Tuition, $5.50 per unit, full work	$21.00

5. **Are there any charges in addition to the above?**

There are the usual fees for music, musical organizations, and rental for instruments as well as for typewriters to typing students. There are also fees for materials used in laboratory subjects for those taking such classes and also charges for breakages.

Music charges per month—

Piano - One lesson per week	$5.40

Typewriter book rental.....	.25	a semester
Physical Education Fee.....	2.50	per semester

6. What is the cost of books?

$15.00 for books and school supplies is ample for most students. These should be paid in cash. We prefer not to charge them on the statement.

7. What discounts are offered

Cash

A discount of 5% is given on the balance owing of the statement. The discount date is the fifteenth of the month following the one billed for.

Family

Five per cent discount for two students and ten per cent for three or more students will be given on room rent and tuition to a person supporting these students to the extent of one-half of the published school expenses. This discount will be granted by written application which should be made at the time of registration.

8. What financial plans does the school offer?

The financial plans offered by the school include ont only the minimum charges as outlined above, but the other necessary expenses (except books and special charges) usually incurred by the average student. The total cost for the year based on the fixed minimum charges and 4 units of study is about $550 for a girl and $575 for a boy.

IV	230.40	345.60	32	30c	38.40	25.60

* The amounts given in these columns are approximate. The amount to be paid is that called for by the monthly statement. This varies according to the charges for board and other expenses, and the actual labor performed.

9. If a student has the amount of cash called for in the last column, is he likely to get in debt to the school?

That depends on how faithfully the student performs his work assignment. Then too, there are times when there are slack spells that we have no control over. Usually a student will be able to make the plan he chooses, provided he keeps the minimum charges such as board and laundry under control.

10. How soon must the monthly statement be paid?

It should be paid by the fifteenth of the month following the one billed for, after receiving the statement. Students are automatically suspended from classes on that date unless satisfactory arrangements are made with the Finance Committee. Seniors and Juniors may not join their classes or take their final semester examinations unless their account is paid or approved by the Finance Committee.

11. What part of his expenses can a student earn at school?

Dormitory students during the past year earned an average of 60% of all expenses. The amount varies according to age, ability, and faithfulness.

12. Are students allowed tithe on labor performed at school?

The Mount Vernon Academy Board of Management has made it possible for students whose account is kept in balance each month to arrange at the business office for the transfer of credit earned by them to the Mount Vernon church treasurer as tithe.

13. What are dates for the financial statements?

There will be nine equal statements, one issued at the end of each calendar month beginning with September and through May.

14. How should checks, etc. be made out?

Make all checks, drafts, and money orders payable to the Mount Vernon Academy.
Please do not make them out in the name of the principal.

15. May students room alone?

When rooms are available, students may room alone. The room rental is then $21.00 per month.

16. Is there extra charge for laundry over and above the laundry included in the room and laundry charge?

Each student is expected to send to our laundry the minimum laundry of $2.50 which is included in his room charge. Extra laundry or dry cleaning will show an extra charge on his statement over and above the minimum charge.

17. May students withdraw cash on their accounts?

Cash withdrawal may be made provided parents have made deposits in advance specifically for this purpose.

18. May students charge dry cleaning to their accounts?

Dry cleaning may be charged on the student's account when the account is settled each month.

18. May students live outside the school home who do not live in their own homes?

Since the management is held responsible for the young people placed in its care, all nonresident, unmarried students are required to room and board in the school home. Exceptions to this rule are granted by the faculty in each case only when the student cannot finance his way in the school home, and has a definite position with some approved private family to work for his room and board. All students not living with their parents or guardians are considered to be under the same regulations as school home students. Inasmuch as it is impractical to supervise such with the same degree of care, they are placed largely upon their honor, and should their conduct become unsatisfactory, the faculty reserves the right to make more satisfactory arrangements. Youth under fourteen years of age are not received in the school home except by special arrangement with the management.

20. May a student apply a scholarship on his expenses?

Mount Vernon Academy follows the scholarship plan as established by

the General Conference Publishing Department, and awards a bonus to the student who fulfills the conditions of the plan.

21. Are any refunds made for vacation periods or extended periods due to illness?

The minimum board and laundry charges will be reduced according to the length of time absent. There will be no reduction for room rent or tuition. Neither is there a reduction or refund for music lessons that the student does not take. In case of sickness or other emergency, arrangements may be made to make up missed lessons, but there is no refund.

22. How is classwork dropped or changed?

When a student drops or changes any of his classwork, he must secure a drop or entrance voucher from the Registrar's office. Tuition will be charged until such a voucher is obtained. Those who drop schoolwork will be charged for the month in which the drop voucher is dated. Tuition will not be charged for program changes or schoolwork dropped during the first month of the semester.

23. Are special axaminations given?

Attendance of classes on an examination day takes precedence over everything else except extraordinary emergencies or serious illness. An unexcusable absence on an examination day renders the student liable to the loss of his grade for the period covered by the examination.

If the student is permitted to take a special examination, he must secure a permit from the registrar's office, and a fee will be charged for the examination.

24. Is correspondence work accepted?

Yes, the extension work of the academy is done through the Home Study Institute, Takoma Park, Washington D. C. At the opening of school, any incomplete correspondence work already begun will be counted a part of the student class load.

Miscellaneous

What Not To Bring

Students are not allowed to bring automobiles, motorcycles, motorbikes, radios or phonographs to the school under any circumstances.

Firearms are not permitted on the school premises.

Because of danger from fire, oil lamps, candles, inflammable chemicals, heating appliances of any kind not provided by the school, electric irons, grills, etc., are not permitted in students' rooms.

Harmful literature, including books and magazines of fiction, comic books and cheap music are not permitted in the school home.

A word to parents

The administration of the academy reserves the right to withhold or to censor mail that may come to students while in the academy when such mail may be suspicioned as detrimental to the experience of the student here in school.

The parents of our students are always welcome. We solicit your co-operation with the Deans, who are responsible for the whereabouts of your children, in not taking them off the campus without insisting that they make proper arrangements beforehand.

It is recommended that necessary dental work be done during the summer.

The student should bring a birth certificate to present at the time of registration.

Labor credits earned by students are not transferable or redeemable in cash except as authorized by board action.

Leaves of Adsence

Students are permitted to go to town not more than once in two weeks, upon designated days.

On Sabbath, students are permitted to go for walks away from the campus at specified times and in directions designated by the deans. Young men or young women are permitted to walk only in the direction and as far as designated by the deans respectively.

Permission for each extended absence from the school must be secured from the principal and can be granted only when accompanied by written request from parents or guardians. Such permission may be denied when the student has unsatisfactory deportment, scholarship or financial status.

Deans will not grant permission for students to be out of the dormitory during study period without arrangements being made with the principal.

Fundamental Principles

Since the fundamental purpose of the academy is to develop in its young people Christian character, and manual skill, it can succeed in this endeavor only by the voluntary cooperation of its membership. Every effort is made to stimulate and inspire the student to faithful and conscientious endeavor to develop the best that is in him, but the school finds it impossible to direct those who are not in sympathy with these purposes. For this reason those who are not in harmony with the principles as here set forth are not knowingly admitted to, or retained in, this institution. For he violation of the following fundamental principles the student lays himself liable to dismissal.

1. The use, handling, or possession of liquor or intoxicating beverages, tobacco, pipes, cigarette paper, or narcotics in any form, or allowing their use in his room.
2. Immoral conduct, or allowing himself to be placed in a position where his morals can be questioned.
3. Meeting persons of the opposite sex in a deliberately planned secret manner.
4. Any student who is married during the school year thereby automatically severs his school membership.
5. Disseminating immoral, atheistic or infidel ideas, or undermining the religious ideals of the institution.
6. The use of profane or indecent language, indulging in lewd conduct or suggestions, or possession of obscene literature or pictures.
7. Attending theaters, dance halls, poolrooms, gambling places, prize fights or any place of similar objectional character, including roller rinks as conducted for the general public.
8. Gambling, betting, possession of playing cards, or other gambling devices
9. Dancing either in public, or in school or resident homes.
10. Theft; picking or breaking locks, doors, or window to enter locked places or tampering with school lights or wiring.
11. Entering or leaving the school homes by any means other than the regular entrances, except in case of fire drill, fire, or by direction of the management.
12. Leaving the school homes without proper permission.
13. Constant and obstinate violation of any school regulation, which finally constitutes insubordination.
14. Undermining the fundamental principles, and antagonism toward the spirit and methods of the institution and continuous criticism and fault finding.
15. The entering of other student's rooms without permission, or the duplicating of keys will be understood to mean possible dishonest intentions.

Students' Contract

Every student who matriculates in the academy thereby enters into a contract to cheerfully and faithfully comply with all the rules and principles of the institution. Failing to do so, he will be retained only at the discretion of the faculty.

D—below average
F—failure

I—condition This indicates incomplete or unsatisfactory school work and may be removed by due diligence before the expiration of the time limit. If it is not removed, it becomes a failure.

Wp—withdrawal for a good cause while doing passing work.

Wf—withdrawal but doing failing work.

All withdrawals after the first six weeks of a semester are recorded as failures unless otherwise directed.

Absences

All students are required to attend classes, study periods, chapel exercises, and other assigned duties for which they are enrolled.

Loitering and visiting in the halls, classrooms, or on the campus during the school session are not permitted.

Punctual attendance at all regular exercises of the school is expected Unavoidable absences are excused if properly signed excuses are presented in writing,upon the day the student returns to the school exercises.

The specific method of handling absences will be announced publicly at the opening of shool and a questionnaire of the procedure will be placed in the hands of each student at that time.

If the number of absences, excused or unexcused, for any semester, shall exceed fifteen per cent of the whole number of class periods, the student may forfeit a portion of his credit at the discretion of the faculty.

A tardiness is counted as an absence unless explained at the close of the class period. Three unexcused tardinesses are counted as one absence.

School Property

Each student is required to pay for the property or equipment he breaks or destroys. Because of damage to window screens that usually occurs when they are removed by students, a portion of the room deposit is forfeited for removing a screen without permission, or other damage.

Students are not permitted to go on the fire escapes or roof of any academy building, or the water tower, except in cases of emergency or at the discretion of the management. A $5 penalty is charged for violation of this regulation.

Tampering with, or the use of any fire fighting apparatus, such as fire hose, fire extinguisters, or ladders is strictly prohibited except in case of fire, an authorized fire drill, or by permission of the management.

Each student is required to pay for damage done by him to the property of the institution, accidentally or otherwise.

Work Periods

Since the domestic work is a part payment of the student's expenses, faithfulness is expected on the part of each, and anyone found interfering with another while at his work is subject to discipline at the discretion of the one in charge.

Visiting in the kitchen, dining room, laundry, press, or any of the shops during working hours is not permitted.

Eligibility to Office

In order to maintain the high standards of a Christian school, it is essential that students who are eligible to official positions of honor and trust in any organization should exemplify the principles of the institution. Hence a student shall not hold official positions when his deportment is unsatisfactory, or the time consumed causes unsatisfactory scholarship.

Eligibility to any office in a religious organization, editorship of any school publication, or presidency of the senior or junior class depends on spirituality, scholarship, and deportment. No student is eligible to hold office in either the senior or junior class unless he has received official notification of eligibility to membership in the class at the time of his election.

The name of each student candidate nominated for an official position in any school organization must be submitted to the faculty in sufficient time preceeding the election, for their approval of the candidate as a nominee.

A word to visitors

Brothers, sisters, and friends of our students, You Are Welcome. However, we find it necessary to limit the number who visit over night at any one time, and for this reason we must ask that all arrangements be made in advance. Please send your request to the dean of the dormitory you wish to visit at least two weeks ahead of the time of your anticipated visit. The dean will communicate with you. AND WHILE YOU ARE HERE we invite you to become a member of our school family. As a member of our family you will be subject to the same rules and regulations which we have established for our students.

Calling

Since the school homes are private homes and not public buildings, persons living outside who desire to call upon members of the home family are requested to follow the custom employed in calling at a private home.

Any member of the academy family desiring to entertain guests in the home must make previous arrangements with the deans, and if it is desired to take the guests to the dining room, definite arrangements must be made beforehand with the matron.

Young men and young women are allowed to associate together with proper permission and supervision. *On no occasion will young men be allowed to visit young women in their rooms or vice versa.*

REGULATIONS PASSED BY THE FACULTY

Any regulation passed by the faculty and announced to the school is considered as effectual as those printed in the calendar.
